## **“Nature of Reality” a movie by G’Odd**

While traveling in the alternate realities, G’Odd has gathered valuable knowledge which he hopes to share with those confined to the accepted existence, in the form of a new album.

He decides to return to the town where he began, Portland, and seek out the mysterious producer, SSD, who worked on his debut record.

However, in order to make this journey, G'Odd will have to know who and where he is. Sounds simple enough perhaps, but if you know the role of perception's impact on our understanding of the universe...

The voyage may be a little more challenging than one might think...  
Such is the Nature of Reality.

### **“Nature of Reality” Movie Soundtrack ep**

Since beginning the movie series documenting the G'Oddyssey, a distinct style of remix, which serves as the basis of the soundtrack, has evolved. It has been one of the most, universally praised aspects of the series.

The soundtrack of the latest movie is perhaps the finest example yet of this process, and is captured in ep form as a 20 min ambient piece.

All sounds taken from the songs on the album “Nature of Reality” on MUTE ANT SOUNDS.
